

UNIVERSITY OF RIJEKA

FACULTY OF ECONOMICS AND BUSINESS

STUDY PROGRAM IN BUSINESS ECONOMICS
INTERNATIONAL BUSINESS

At EFRI, we firmly believe in our students and their competencies, and that they have a lot to offer to the world. We started our study program in English in 2011, and over the years, we have had students from all around the world.

By adopting the Bologna process, our Faculty has become a part of the European Higher Education Area (EHEA). We strive to offer high quality and worldwide recognized study programs. All of our study programs are designed in line with the latest professional and scientific standards.

We started as the first, and so far, the only Faculty in the region offering university study programs in Economics completely taught in English. Since 2011/12, we have been offering university undergraduate study programs in Business Economics - International Business, and from 2014/15, we started offering university graduate study programs in International Business as well. Moreover, most of our postgraduate specialist and doctoral study courses may also be held in the English language. We adhere to the highest quality standards. Our programs have been accredited and are currently undergoing accreditation processes within various associations of higher education institutions. As education represents one of main factors in the development of a knowledge based economy, we aspire to pass on to our students the notions and knowledge which will give them the competitive advantage and thus primacy on the labor markets.

Faculty of Economics and Business encourages students' creativity and innovation and offers its support and financial and technical assistance in establishing student spin-off.

The entire Management Board, teaching and administrative staff, as well as your future fellow students, welcome you to our EFRI!

IN THE INTERNATIONAL BUSINESS AND SCIENTIFIC ENVIRONMENT, AND IN COOPERATION WITH THE COMMUNITY, BY EDUCATING AND DEVELOPING ENTREPRENEURIALY ORIENTED AND SOCIALLY RESPONSIBLE LEADERS, MANAGERS AND RESEARCHERS, WE CONTRIBUTE TO THE DEVELOPMENT OF SOCIETY AND SCIENCE
